Carbon Fiber Monopod

Thank you for your purchase of this carbon fiber monopod, a compact, ultra-light way to stabilize your camera during epic hikes, photography adventures and more! Designed by Danger Buddies in Wisconsin, this monopod features:

- 5-Section collapsible design expandable to 61"
- High-strength, low-weight carbon fiber construction
- Reversible 1/4"-20 & 3/8"-16 thread adapters
- Includes both non-marring rubber foot and stainless steel spiked foot
- Includes nylon carrying case

Usage Instructions

- The monopod comes with the rubber foot installed. The rubber foot is non-marring, ideal for use indoors or on smooth surfaces. If desired, unscrew the rubber foot and replace it with the spiked stainless steel foot. The spiked foot is ideal for soft, uneven ground such as hiking trail. Do not use the monopod without one of the feet installed!
- Expand the monopod sections to the desired height by loosening the leg locks and sliding out each section. For best results, extend the thickest sections first, then adjust to your final desired height by lengthening or shortening the thinnest section. Tighten the retaining rings gently - excessive tightening force is never required!
- Choose your thread size - 1/4"-20 or 3/8"-16, by loosening the top collar and installing the mounting screw in the desired orientation. Tighten the top collar gently - excessive force is not required to secure it into position.
- Mount the camera to the monopod by threading the monopod's top screws into the camera's tripod mount. Secure it by turnign the top collar until the collar connects to the camera's body.

Care, Maintenance and Warranty

Your new monopod requires very little care to function properly under normal use. If dirty, it can be wiped clean with with a damp rag. Do not disassemble the individual sections of the monopod. Inspect the monopod visually for any signs of damage or wear prior to each use, and do not use the monopod if any evidence of damage is observed. Avoid exposure to sand and other abrasive materials, these can damage your monopod's legs, causing scratches that can affect its ability to extend or retract. This damage is not covered under our warranty.

Danger Buddies LLC warrants this product for a period of 1-year against defects in materials or workmanship if the product fails during normal use. This warranty is limited to the original owner and covers repair or replacement of the monopod only. Normal wear and tear or accidental damage is excluded. Always inspect your monopod before use. Need warranty service? Email us at feedback@dangerbuddies.com.
